INDIANAPOLIS MARKETS.

Trade Fairly Active, with a Strong Tone to

In all de partments trade to-day was fairly

active. Dry goods men report a number of buy-

ers in, and an increasing inquiry for fall and

winter goods. Grocers were quite busy. The

distribution of sugars is large, and prices still

tending upward. Coffees, as well, are a little

firmer in tone. The position of Rios is certain-

ly stronger. For pretty much all descriptions

of coffee in the way of mild grades the idea of

the market is a favorable one from a holder's

stand-point, and stocks are, in consequence, of-

fered with a considerable degree of caution and

some indifference where quality may happen to

be specially attractive. The present demand is keeping up in fair average volume.

The produce markets are very active. Receipts

of eggs and butter light; prices firm. and the re-

ceipts of poultry are falling off, and with this

prices are a little better. New apples of better

quality coming onto the market, but prices are

weak. A good apple could be bought to-day at

\$2 per barrel. Berries are coming in freely. Red and black raspberries, however, are about off the market. Receipts of blackberries have

not been larger for years, and with this prices

rule low. Potatoes are abundant and lower;

large, well-ripened ones to-day sold at \$2 per

barrel. The provision market is rather quiet.

Prices hardly as strong as a week ago, except

bams, which are in good demand at the ad-

vanced quotations of Tuesday. The hide mar-

ket shows no improvement in prices, but the

dealers report a slightly improved demand.

Lemons and oranges scarce and firm at quota-

tions. Choice lemons our highest quotations

will hardly cover. In other lines there is noth-

Receipts of wheat are increasing, but it is not

grading as well as had been expected. There is

more inquiry for some grades of corn, but prices

show no improvement. Oats rule quiet. Bid-

ding on 'Change to day was a little slow, and

until more interest is taken an active market

need not be looked for. Track bids, to-day,

MONEY, BONDS AND STOCKS.

An Increase of Activity at New York, Prices Being Well Maintained. NEW YORK, July 18 .- Money on call was easy at 1014 per cent., closing offered at 14.

Prime mercantile paper, 4@61 per cent. Sterling exchange was dull but steady at \$4.862 for 60-day bills and \$4.884 for demand. The total sales of stocks to-day were 265,967 shares, including the following: Delaware, Lackawanna & Western, 13,620; Erie, 7,845; Lake Shore, 5,675; Louisville & Nashville, 5,360; Missouri Pacific, 10,897; Northwestern, 5,480; Norfolk & Western, 6,645; Northern Pacific preferred, 10,831; Oregon Transcontinental, 8,705; Reading, 36,320; Richmond & West Point, 15,525;

St. Paul. 28,160; Texas Pacific, 3,778; Union Pa-

cific, 22,180; Western Union, 21,250. The stock market was again more active today, and, while somewhat irregular, and at times feverish, prices were well maintained and moderate gains in most of the list were the result of the day's operations. The news of the day was generally favorable to advancing prices. but the selling by London, which was expected yesterday, materialized to-day, and a large number of traders were still working for a reaction. The demand for stocks, however, was not diminished, and the bullish feeling at times ran high, and commission houses reported plenty of orders from outside people. St. Paul was the feature of the early trading, as there

as high as 1-32d per diem asked for the use of the stock, and notwithstanding the London sales, its price was advanced fractionally. The other grangers were all firm to strong on the crop report, but in the coalers, Reading was the only one displaying ordinary animation. The Southern stocks and other inactive securities were unusually prominent, which is regarded as an evidence of the broadening tendency of the market. The opening was rather heavy, with most of the active stocks small fractions lower than last night's prices, but there was a very heavy business during the first half hour, over one-quarter of the entire day's trading being transacted at that time, and a decidedly strong tone marked the dealings. The gains were for fractions only, however, and the traders succeeded in making some reaction toward 11 o'ciqck, but this was afterward regained when Missouri Pacific came to the front. Dullness then overspread the list, and the movements were entirely insignificant except in a few of the specialties, among which Pullman and Colorado Coal were most prominent, and some reaction was again made toward 2 o'clock. The last hour saw a renewal of improvement, and the close was quiet but firm at fractions better than first prices. The final changes among the active stocks are somewhat ity, but the heaviest gain, which was in Oregon

Improvement, was only i per cent.

The railroad bond market was only fairly active, with total transactions of \$1,435,000, and to that amount Texas Pacific seconds contributed \$288,000, and Erie seconds \$136,000. The market was strong, without special features of importance, and a steady improvement in value continued throughout the day. The most prominent advances were Northern Pacific thirds, 2,

to 96, and Virginia Midland generals, 2, to 332. Government bonds were dull and steady.

CHICAGO, July 18.-Wheat was more nearly on its merits this morning than for many days. The pile of "long" wheat which has threatened and did break the market, was all dumped, and "more, too," as a broker put it. At the start today the market was strong. August opened at 80c. The cables, the decrease of 1,289,000 bu on passage, and the poor condition of new wheat at St. Louis, were arguments on the "buil" side. The clearances at three Atlantic ports were but about 50,000 bu, while the receipts at primary markets were about 280,000 bu. Up to the last half hour of the session the advance was but little beyond ic for any futures, above the fraction lost yesterday. August sold at 80c, down to 79ic, up to 80ic, and hung close around 80c for two hours. September ranged at 79i 280c, and December at 82 2 82ic. July wheat closed at 81ic, August at 791c, and December at 821c. There was a steady upward movement in corn to-day, and closing prices were to higher for early futures and to higher for deferred futures. An influence in the pit was the demand for cash corn. July closed at 472c. August sold at 462 up to 462c, back to 46; and up to 47; and closed at 47;c. September sold at 46; and 47; closing at 47c. Receipts were 204 cars, with 98 cars of No. 2 grade. The estimate for Thursday was 193 cars. The oats inspection for twenty-four hours was 120,000 bushels. There was a demand for room by lake, and shippers took vessel room for 337,000 bushels on the basis of 2c to Buffalo. An improvement in cash or sample trade occurred, advanced prices being realized on account of a marked decrease in the quantity of oats on sale. Options were quiet, and without special feature, fluctuations being unimportant, and prices ranged to easier, the only exception being near deliveries, which declined c. Provisions more than recovered yesterday's lost ground. The sentiment of the trade was unquestionably bullish. The light marketing of hogs, combined with a continued good cash demand for product, has worked a radical change in the feeling. "Shorts" have become anxious to reduce their outstanding lines, and a more conservative course is followed by professional "bears." To-day's market was also strengthened more or less by the improvement witnessed in grain. In pork the advance actually established was 171 220c; in lard, .071c, and in short ribs, .10c. The lowest prices quoted prevailed at the opening, and the highest late in the day. The sales again reached a liberal aggregate. For September delivery, the leading future, pork sold at \$13.35 @ 13.62\frac{1}{2}; lard at 8.37\frac{1}{2} @ 8.42\frac{1}{2}c, and short ribs at 7.80 @ 7.87\frac{1}{2}c. Pork for the same
